

New Canvas Rich Content Editor

Rich Content Editor (RCE), a tool for creating and editing your content in Canvas on Announcements, Pages, Syllabus, Assignments, Discussions, and Quizzes now has a new look. Canvas has rolled out a new interface which is now more intuitive, condensed and easier to use. Related tools are grouped together for easy access and application. The changes will be implemented around mid August. Here are a few highlights.

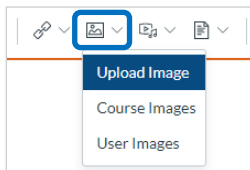

- The editing menu spanning across the top and related tools grouped together

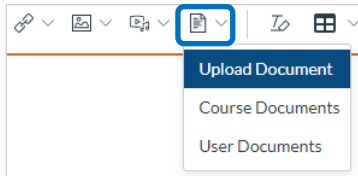

- Linking to external resources or content within a course through the **Links** icon.

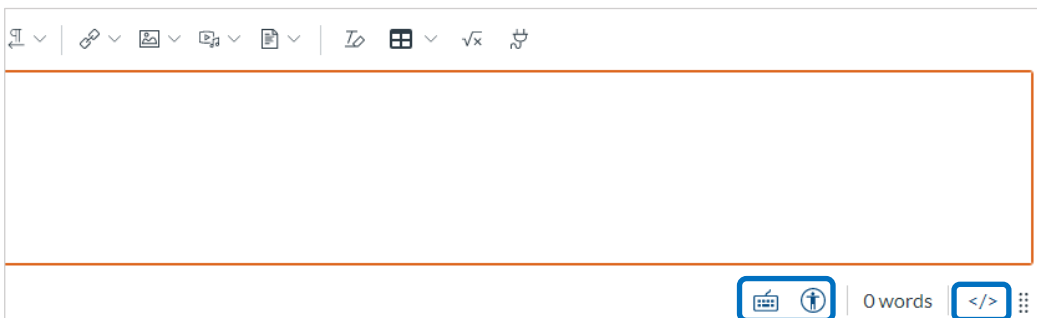

- Uploading external or course images directly from the **Images** icon

- Adding course files through the **Documents** icon.

- The **HTML editor** located at the bottom of the Rich Content Editor, where you can also find **keyboard shortcuts** and **Accessibility Checker**.

For complete details of the new interface visit [Canvas Release: New Rich Content Editor](#). If you have any questions, please contact e-Learning Support at (352) 392-4357 option 3 or learning-support@ufl.edu.
